Unity a road to rise

Every nation has specific cultures and traditions. They try to lay their lives according to the beliefs and theories, those distinguish them from others.

Muslim nation has specific cultures, separate traditions, distinguished theories and well guiding book “the Quran”. They have kept their separate identification for centuries. They have unmatched value in the world. Islam is

the second largest religion of the world. And you know that most of Christians and Jewish have been apostate from their religions, they have rejected all religions and

presented themselves as secular. If we deduct these seculars from them, Islam will come first.

Strategic situation

If you have a glance on the world map you will find that Muslim world is covering a vast, expensive and more important region. It comprises influential ports, international airports and significant strategic areas. Arab countries have sufficient oil resources. Several kinds of minerals are present in Muslim world in plenty. This area plays a key role in international politics. Worldwide economic boom become impossible by neglecting this nation. More than 67 countries have their Islamic identification. Most of them have high value and untold strategic locations.

If they ban their airs for planes to fly
or their coasts for ships to sail,
worldwide communication and
international trade will go down.

Despite of this, entire Muslim
nation has become
an abbreviated
piece of nothing,
because they have
zero tolerance for
each other. As a
result we have been
like a leaf in wind.
We do not have any
direction. Some are
proud of following
America, others
want affiliation with
Europe, some live
under the rule of France and some are
glad and happy in disposal of Russia.
We have forgotten that Allah helps
those who help themselves.

USA

USA is abbreviation of United States of
America. There are 50 states in USA.
These all make one strong powerful
and influential state. A horrible civil
war took place in the time of Abraham

Lincoln (1865) but even after then
USA is the safest state to live in.

European Union

Another example of unity
is European Union. It
consists of 28 countries,
where one can travel from
country to country without
visa and passport. This
block has the world
strongest and trustable
economic boom.

Islam teaches us
unity. After migration to
Medina the holy prophet
(PBUH) established strong

brotherhood among *Ansar* and
Muhajareen. This was the first step
the Holly Prophet (PBUH) took toward
unity. Then He united two tribes *Ows*
and *Khazraj* notorious in bloody
conflicts among them. This provided
unmatched power to newborn Islamic
state. Allah says “انما المؤمنون اخوة”
indeed Muslims are brothers. But who
will be the first to act on it? The
answer is you.

Noor wali shah

Some days ago the heartfelt news shook me and gave me a numb feeling through the whole body. The world was ringing with the deplorable and woeful news that respected teacher, noted religious scholar, professor of Hadith at Jamia Haqania Akkora khatak and well known personality Dr, Sher Ali Shah has passed away. It gave nothing but sadness and anxiety. Eyes hung open and burst into tears. We did not find any shelter without saying this that it was given by God and Allah has

taken him away, and we all will be returned to our real Lord, the creator of this vast and entire universe.

Dr, Sher Ali Shah was not a typical man. He had a command of religious matters, deep experience of politics and Jihad.

Life

Dr, Sher Ali Shah was born in 1930. He was son of Qudrat Ali Shah who was farmer. He belonged to Sadat family. Following his father, his occupation was farming too.

Education

He obtained all his education from “Adatia” to “Dora e Hadith” from Haqania. In 1955 he completed his “Darse Nizame” from Haqania. Later

on he started teaching in the same madrasa on the wish of maulana Abdul Haq.

Arrival at Medina University

In 1973 he desired to go abroad for higher education. He selected the pure and perfumed climate of Holly Medina. This thought and religious feeling forced him to take admission in Jamia Islamia Medina Munawara. There he obtained MPhil degree in Islamic law. Later on he completed his PhD as well. He stayed there in Jamia Islamia Medina Munawara for eleven to twelve years.

Gets back to homeland

After completing his PhD in Jamia Islamia Medina he got back to Pakistan. On arriving Karachi he was offered by Darul ullom Korangi as a teacher. He accepted their kind offer and started his teaching career as sheikh ul Hadith in Darul ullom Korangi. He was also offered by Jamia Arabia Ahsan ul ullom and he was appointed there as sheikh ul Hadith as well.

In Akora khatak

In 1996 he got attached with Jamia Haqania Aakora khatak once again. After the demise of Mufti Muhammad Farid he was appointed as sheikh ul Hadith. He remained on this honorable post till his last breath. Dr, Sher Ali Shah studied Tafceer from Sheikh Ul Tafceer Ahmad Ali Lahori and Hafiz ul Hadith maulana Abdullah Darkhwasti. Maulana Sami ul Haq and maulana Mosa Rohani bazi were his well-known classmates.]

Language skills

His mother tongue was Pashtu. But he had a command of Urdu, English, and Arabic as well. Religious scholars from all over the world were used to meet him respectfully. They had deep respect and honor for him. He was a respected teacher of thousands of Islamic scholars and Mujahedeen in Pakistan and Afghanistan. He has written several books on several current issues. He was not a typical religious scholar. He had a keen mind and pitiful heart. He participated in Afghan war against Russia. He was guardian of

international khatam e nabowat

move
ment.
In his
last
some
years
he

was appointed central Amir of Tehrik
e nifaz e Islam Pakistan. Its voice
central Amir is Mufti Hamidullah Jan
(may Allah
protect him).

Sad demise

Dr, Sher Ali Shah
had been
seriously ill for
several months.
Some days ago
he was rushed toward a private
hospital in Peshawar due to his falling
health. Later on he was shifted back to
his home, however his health fell
down after Asar prayer once more and
the sad time came when he saw at a
last glance round him and closed his
eyes forever. May Allah grant our
respectable teacher the highest stage
in Jannah.

Funeral prayer

People from every walk of life came to
offer his funeral prayer. The evidences
show that more than hundred
thousand people from Pakistan and
Afghanistan took part in his funeral
prayer. Everyone was sad and
drowned in deep thoughts over his
sad demise.

Those who visited Akorha khatak to
pay homage and
glowing tributes
to his vast
religion services
included head of
Wifaq ul madaris
Alarabia Pakistan
Maulana
saleemullah

khan, chairman of Qaumi watan party
Aftab sherpao, member of national
assembly Dr, Imran Khattak, PTI
chairman Imran khan former MNA
maulana Abdul Malik, chief Minister
Pervez khatak went to Akorha khatak
to offer condolences to Arshed Ali
shah and maulana Sami ul Haq. He
said that his religious services will be
always remembered. He said that his

work for the restoration of peace in country would be appreciated.

Heartfelt grief

People from all walks of life showed heartfelt grief on his sad demise. Religious scholars said that it is a big lose to Muslim Ummah. Maulana Saleemullah khan, Dr, Abdur Razaq, Qari Hanif Jahlendry and

Maulana Anwar ul Haq said in a collective statement that his death is a big tragedy for the entire Ummah. His services are worth written with golden water. Mufti Zarwali khan said that the Muslim nation has deprived from a great Faqeh and Mufaser .Maulana Sami ul Haq termed his demise as a big shock. Maulana Fazal ul Rehman said that we feel great regrets and deep grief on his passing away.

WE AND OUR CULTURE

(Abid rahim)

We feel ourselves safe. Although we are living in safe houses, but we are never safe. The concepts, values, ideologies, and faculties of our new generation are being destroyed. Let me describe it by telling a story. We went to a party the other day. It was a grand one for giving prizes to

the position holder students of district Dera Ismail Khan. When the time came to deliver speech, a man started delivering speech in broken English that only sounded similar to English but infect it was enough to abase this language and to raise the blood pressure of any native of English speaker. After party when I had a moment alone with him, I could not keep myself from asking; why he delivered speech in English

while all the speakers and listeners were Urdu speakers. I told him it was better to speak Urdu if you were comfortable with English. His reply was shocking. My dear! If I had spoken Urdu, I would not have been allowed to participate in this party. It was the feeling of inferiority that compelled the man to speak English, which brought a question mark on his personality. There are two other factors also which force us to follow the western culture. One of them is that, our ruler sect improves this culture to keep their western

masters happy. 2nd factor is that the western culture is being enforced us by the media. Therefore we should first request humbly our rulers that, there is no need of any other culture. We have a strong Islamic; culture which teaches us positive ideology, sincerity, empathy and gives us cosiness, satisfaction, purposence and humanity. And we should be aware of the media gimmicks as well as our values, ideas and customs are being changed by the media. Many people would say that we can't save ourselves from this culture, because this time it is an important part of our system.

We get the new technology and all the modern knowledge from European countries. How can we get the modern knowledge without following their culture? I

agree but we can solve the question turning a leaf of

history over. Let us flip a page of history. It was the era of prosperity for the Muslims. Muslims had a grip over all knowledge. Our culture had the same status as the western culture has today. The Europeans have realized that they cannot develop their values and customs unless they gather knowledge of Muslims. They get full command of our knowledge. So they found entrance to Muslim empire and left us far

behind. A time came they were more powerful than Muslims, but they did not follow our culture. Similarly we can do like them. We should gain the knowledge they have and get command on it. What is necessary for us is knowledge not the culture.

But in fact we are

walking opposite. If you go in any Muslim university you will certainly observe the European culture. If we do what they did in achieving command over our knowledge we can find soon the entrance to their technology and to their empire as well. So oh Muslim when are you going to wake up? Let's improve our culture otherwise our culture and religion are both at the sack.

MIRACLES OF ANBLA

(PBUH)

(Islam uddin)

Miracle is an action that does not be done again and it is an act or event that does not follow the law of nature and it is a super natural.

Allah sent every single prophet with some miracles. But why Allah sent every prophet with miracles and what was the purpose of sending miracles.

The main aim of them was that such a person cannot be

a liar, and cannot be magician. That is why Allah Gave each single prophet different miracles. Prophet Musa (PBUH) was given nine of them. One of Them was his stick. Whenever he threw it became a snake and the other miracle was that when he entered the sea with bani Israel Allah made the sea like earth and they were able to walk in the water and Allah saved him. When firown entered with his army Allah ordered the sea to engulf them and they abstracted.

And look at the miracle of prophet Isha (PBUH). Allah gave him many miracles. Allah created him without father that is the miracle, and made him able to talk to them when he was very small baby in his mother's bosom. And when someone was clinically dead and his soul had gone away completely. Allah told him that you call him out. When he called him out such a person who was completely dead came to him quickly, and Allah brought his life back to him. And he made pigeons from the sludge and ordered them to fly by the command of Allah. Allah gave them a life.

Those were all miracles of Isha (PBUH) which Allah bestowed with.

And look at the miracles of prophet Ibrahim (PBUH) that Allah gave him. When the

persecutor Nimrod threw him at flagrant flames of fire, Allah ordered to fire to become cool and comfortable for Ibrahim (PBUH) and he said those forty days were the most comfortable days of his life. This is the miracle of prophet Ibrahim (PBUH)/

When our holy prophet (PBUH) was sent to Makkah, the people of Qurish demanded miracle. They asked why he did not call the angels to come down and tell them that he was not a fraud; not a liar but he was messenger of Allah. And why he did not change the desert of Makkah into a green area, if he was the prophet of Allah sent to them.

When they demanded miracles Allah gave him many miracles. The most significant and the greatest one is Quran. Allah says in Quran. If all the

mankind and Jin get together to bring a book like the holly Quran they cannot bring, even they become helper to each other. When Allah demanded him to bring a book like Quran and they could not do that, Allah reduced it from the complete Quran to ten surah and told them to bring only ten surah, which are like the Quran and call anyone they wanted apart from Allah. So they could not do that, then Allah reduced once more and demanded them to bring just one surah similar to any surah of Quran, then we accept that Quran is not from god. But they failed in this claim, so Allah demanded them first whole Quran then ten surah then asked them about one surah. They could not do that, then Allah gave ultimatum that if you could not do it and you will certainly never be

able to do it. so this is the miracle of Quran. And it exists till today. And there are a lot of other miracles which were given to our prophet (PBUH). He pointed the moon by his finger as a result it broke into two parts and it was in front of all. Even then they did not embrace Islam except some people.

And another miracle is that the prophet (PBUH) went up to the seventh sky in a few moments and got back to Makah also in the same night. And in the battle of Ahzab one lamb was enough for the entire army. There are a lot of other miracles of our prophet (PBUH). Allah sent each prophet with some miracles to show the people that person is a messenger of Allah and they should follow him in every order he said. That was the main goal of sending miracles.

BAN ON QINGQI RICKSHAWS IN KARACHI.

Noor wali shah banuri

Ban on Qingqi rickshaws has caused great concern to the residents of Karachi. Thousands of people use these rickshaws. They are facing untold difficulties in reaching their job on time. Beside this thousands of people

associated with these motor cycle rickshaws are rendered jobless. Traffic problem is getting worse day by day. The government ought to take interest in the relevant case,

and try to solve this stressful and terrible problem as soon

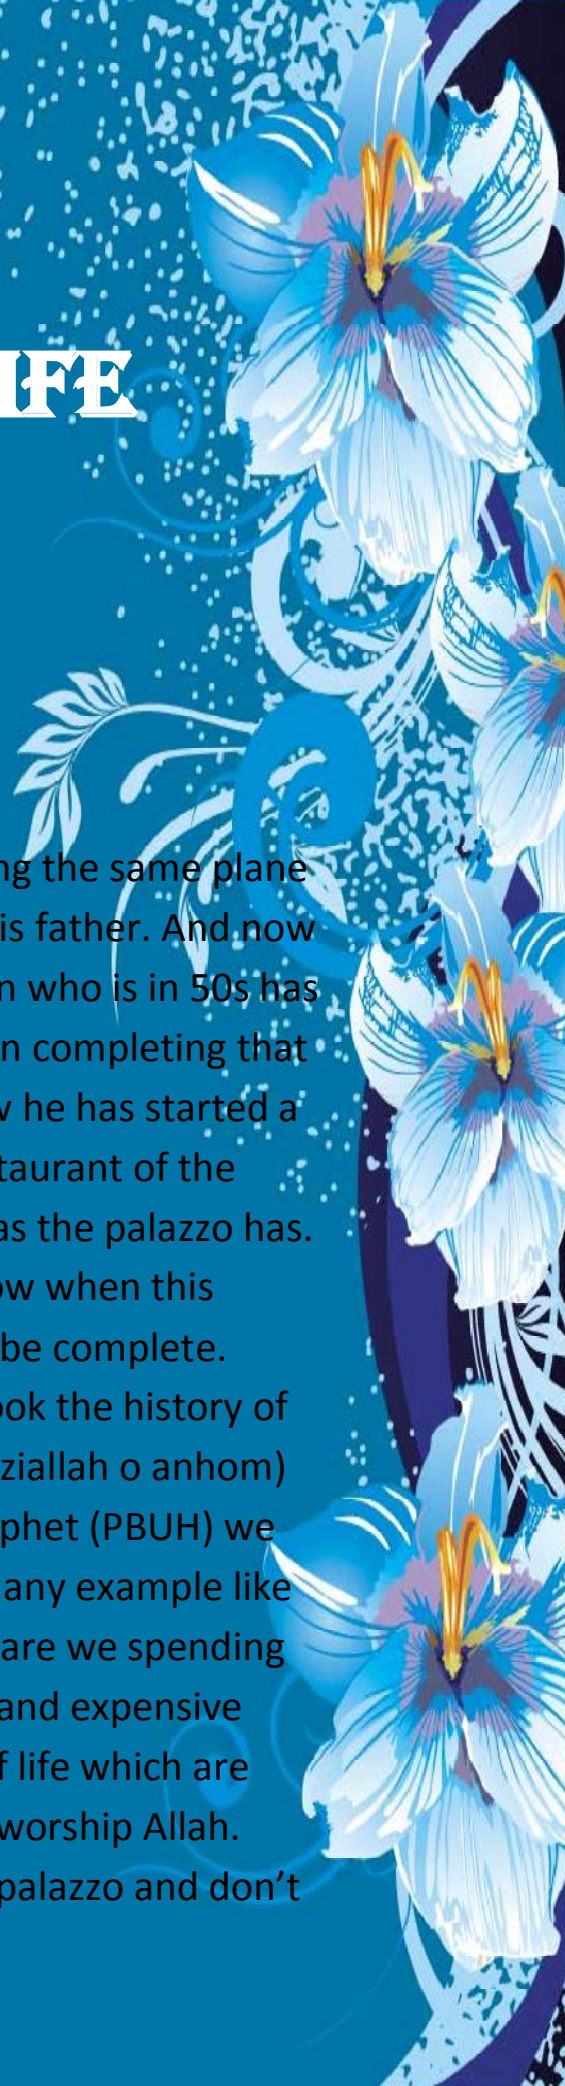

as possible.

THE HEREAFTER LIFE

(Atif shahzad)

It is a short life. A person makes a lot of plans, and then starts to complete those plans. But it is true a person dies and leaves this world, but his desires do not end. I have an example on this. Although there are a lot of other examples those are invisible. A rich person used to live in neighbor. His grandfather made a plan about a house like a imperial. So he started to build it. He spent all his saving on that house. But he could not complete it, and passed away. Then his son continued the construction

and following the same plane planed by his father. And now his grandson who is in 50s has succeeded in completing that house. Now he has started a plan for restaurant of the same style as the palazzo has. I do not know when this project will be complete. When we look the history of sahabah (raziallah o anhom) and the prophet (PBUH) we cannot find any example like this, where are we spending our energy and expensive moments of life which are given us to worship Allah. don't build palazzo and don't

plan long projects, just build

yourself, your personality.

WHO WAS DR. SHER ALI SHAH SB?

Farid kakar

When it comes to write about our elders and akkaber we have a lot to write. Now that we have been deprived from a noted and great person Hazrat maulana Dr, Sher Ali shah sb, I am going to pen something about him.

Maulana Dr. Sher Ali shah was in 1930 in Akkorra Khatak. He obtained his early education from his father Maulana Qudrat shah. When Maulana Abdul Haq (rh) came to Pakistan and founded the Darul ullom Haqania Dr. Sher

Ali shah started studying in Haqania. In 1654 he got first position in Dura Hathid in Darul ullom Haqania. After he also studied in Jamia Ashrafia Lahore for some time. In April 1954 he started teaching in Darul ullom Haqania for Rs 30 monthly. He taught there for some time. In 1976 he took admission in Medina University. He spent about 15 years Medina where he got his M Phil and PhD degrees at the same time he taught in Masjide Nabwi as well.

In 1977 he came back and started teaching in Jamia

Darul ullom Karachi. He also taught in Ahsanul ullom and Manbau ullom. In 1998 he shifted to Darul Haqania as a teacher and served there as Sheikhul Hathid till his last moment.

He was one of the great ullama of the area. His Arabic skills were excellent. He was the classmate of Maulana Samiul Haq and Mauna Hassan Jan (rh). "Tafseer ul Hassan ul Basri", "Zubda tul Quran" and "Zadul muntahi sharhe Termizi" are some of his most well-known works.

He had the pleasure of Jihad as well. He took part in Afghan jihad against Russians. He struggled a lot for Taliban. He was the assistant and commander of Taliban and for the sack of Jihad he visited different countries and motivated the Muslims about it.

Dr. Sher Ali shah had deep love and respect for country Pakistan. He wanted Islamic law in Pakistan. His speech delivered to scholars shows his patriotic feelings. He said in his speech,

"Pakistan was established just Islam and it is a gift given by Allah just for sake of Kalimah. Ullma must come out of their homes they have to work hard for the survival of Islam. They have to try their best for this holy purpose and have to sacrifice their lives and wealth for the enforcement of Islam in this country but Ullma are not working for Islam in the country achieved in the name of Allah. Seculars, traitors and villains are working against the Islam in this country but Ullma are not working for Islam which was the aim of this country. Until Ullma do not work Islam could not be enforced in the country.

The flag of Pakistan was flown first by Maulana Shabir Ahmad Usmani (rh) at the same time he was weeping and reciting the Holy Quran and Hathid and giving thanks to Allah. Now a days seculars say that Pakistan was not established for Islam I say that they are not aware of it even they were not in the womb of their mothers at that time I was 17 at that time and we used to say "there is no worthy of worship but Allah and Muhammad (PBUH) is the messenger of Allah".

Maulana was well-known scholar in Pakistan. He had been suffering from hurt disease for years. On 30-10-2015 he passed away. His funeral prayer was offered by his elder son M.Amjad Ali shah in a big and large ground near Darul ullom Haqania in the presence of thousands of people. After prayer he buried

beside his father's grave. Numerous famous scholars delivered speeches about his education career in the Mosque of Darul ullom Hqania on his sad demise. The mortality of Dr. Sher Ali shah sb is really deplorable for us because hazardous time we cannot stay without scholars like him.

May Allah shower his blessings upon him and grant him "Janat ul ferdous" (the highest degree of Janath).Aameen

UNEMPLOYMENT

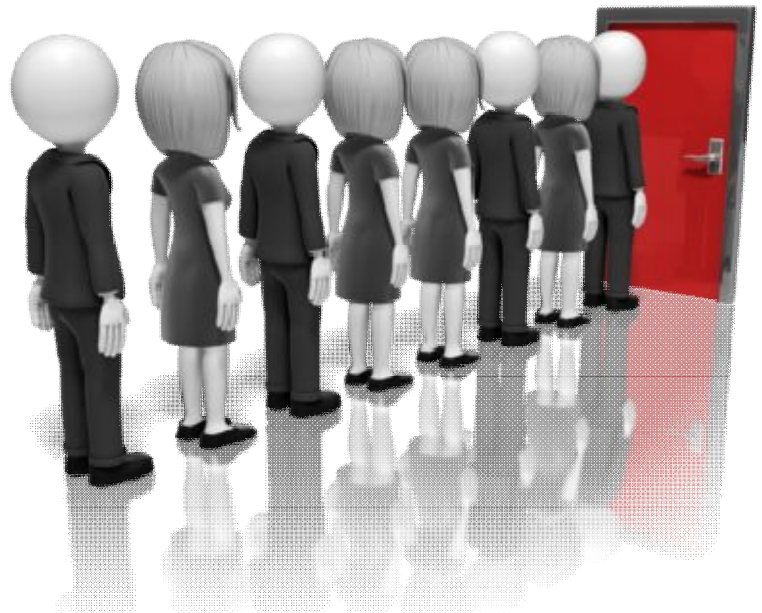

Abu zar Malik Astori

It is a fact that a large number of people in our country and others countries live without employment

A person who has a job or he is doing some work every one like him and look him with respect. On the other side every one neglects who has no job.

Beside this now a days a number of people have high

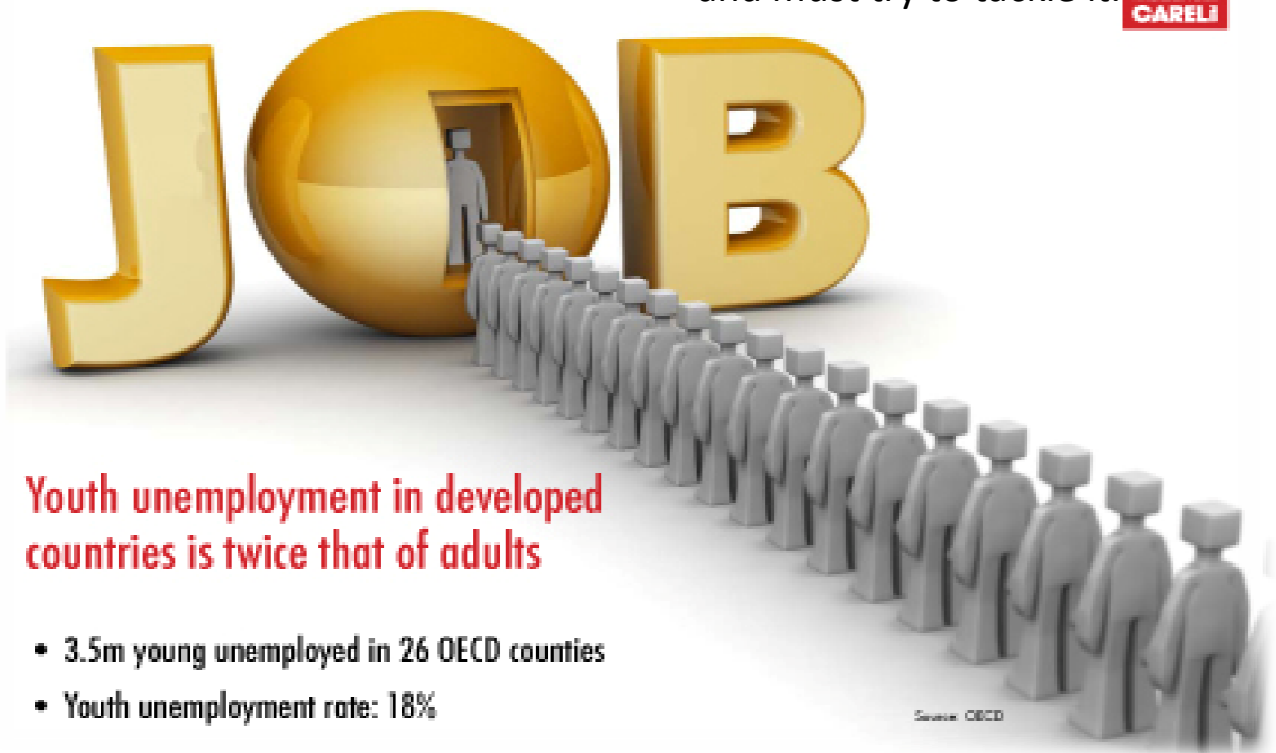

degrees of education and they have also expertise in many fields but they cannot get job anywhere .Half of the year they do a little bit of work here a little bit of work there and after than sit idle.

There are many causes of this large scale unemployment .One of the causes of unemployment is the population is increasing by millions every year. It becomes most difficult to give

jobs to all the additional people's .Another cause of unemployment is our slow industrial development.

Government should pay attention toward this problem and must try to tackle it.

Youth unemployment in developed countries is twice that of adults

- 3.5m young unemployed in 26 OECD countries
- Youth unemployment rate: 18%
